FACIAL SPA

HYDRABLUÉ MOISTURIZING FACIAL - 60 MINUTES

After a thorough cleansing, the exfoliation process smoothes the skin to renewal. A self heating pure pore mask is massaged over the skin to absorb pollutants and sebum based impurities. Skin is perfectly prepared for a deep pore extraction, followed by application of serums, and finished with a creamy mask that hydrates the skin for a bright, energized complexion. *Customizable to your specific needs.

BLEMISH SOLUTION FACIAL - 50 MINUTES

A facial treatment formulated to address the significant symptoms of acne to help purify and normalize the complexion. A mild acid dis-encrusting peel is used to soften the surface of the skin and begin the cleansing process. Then a deep pore extraction is performed to remove the impurities responsible for causing an inflamed breakout. A unique post-extraction serum reduces redness and inflammation to increase the skins repair response. Finally, a cool, creamy mask absorbs impurities, while soothing the skin.

CITY LIFE SKIN FRESHNESS TREATMENT - 60 MINUTES

Like a breeze, this facial will sweep away toxic microparticles and repair damage caused by urban lifestyle pollutants. A self-heating mask will gently absorb impurities and contaminants from below the skin's surface during a double brush massage. After a pore extraction, a customized complexion enhancing serum is applied to eliminate dull tones and fatigue, as well as restore radiance and brightness. To further neutralize damage and replenish the skin with moisture, a detox-oxygen mask is applied. Lastly, an algae-based moisturizing sorbet is massaged into the skin to shield pollution, revitalize and protect the complexions fresh, clear glow.

OCEAN ILLUMINATION - 50 MIN

Even out age spots, sun damage, and other issues related to hyperpigmentation with this renewing, brightening facial. An alpha hydroxy acid peel removes layers of pigmentation in preparation for skin brightening serums followed by a complexion balancing massage infused with algae and sea lily extracts. A potent vitamin C mask further regulates pigment production for a luminous, even complexion.

LUXE'S SIGNATURE YOUTH FACIAL - 50 OR 80 MINUTES

From the depths of the ocean and the coastlines of France, natural solutions are cultivated to restore a youthful texture and radiance to the skin. A marine AHA scrub is used to polish the complexion to smoothness; then sea retinol boosts cellular turnover for skin regeneration. Finally, a specially formulated rubberizing mask reduces the depth of wrinkles and resuscitates the skins natural firmness while free radicals are outsmarted to curb premature aging. For the duration of this treatment, you will enjoy a warm, popping sensation from our detoxifying mud treatment encompassing your back. An experience recommended for all ages and one you will not soon forget.

**FOR THOSE THAT SELECT THE 80-MINUTE TREATMENT, YOU WILL ENJOY A MASSAGE WITH A SPECIALLY FORMULATED RUBBERIZING EYE MASK THAT WILL SMOOTH FINE LINES, FOLLOWED BY AN OXYGENATING STEAMED MASK TO DETOXYFY & REVITALIZE ALL CELLULAR FUNCTION.

** NOT FOR THOSE ALLERGIC TO SEAWEED OR IODINE
